Internet Services Brochure

"A Proud First Nations Internet Solutions Corporation"

GLOBALIZATION

The world is moving at a rapid rate toward globalization. Soon the only way for business, and organizations to prosper is to be able to compete on a global scale. This trend is fuelled by the explosive growth of the Internet. To meet the demands of this current environment, Buz2i formed together a number of associates from various disciplines,

with the objective to allow our clients to capitalize quickly on various opportunities that present themselves, in this rapidly changing landscape.

The explosive growth of business on the Internet.

BUSINESS TO INDUSTRY

Buz2i Inc. provides Internet strategy consulting and sophisticated Internet-based solutions to corporations and start-up companies. Buz2i Inc. helps its clients define Internet strategies, which improve their competitive position in this aggressive world marketplace.

At Buz2i Inc. we provide user-centred Internet solutions. Every step of our design and development processes keeps in mind the goals of the client and the end-user. Our team of experts in Internet communications and technologies delivers quality websites and offers comprehensive usability consulting services. We have developed processes focused on usability while maintaining a strong commitment to our

Our services can help give any size business a clear competitive advantage on the emerging net economy.

Your One Stop Internet Shop

We have everything you need to stay in touch with your clients, friends and family, 24 hours a day, 7 days a week.

Businesses to business retail delivery of product information or just keeping your friends abreast of developments in your world.

Buz2i has an affordable information delivery solution for you. In addition to our wide array of stock products; we offer custom solutions to best suit your needs.

clients' goals, schedule, and budget.

For information on how we can help your business grow, please contact us.

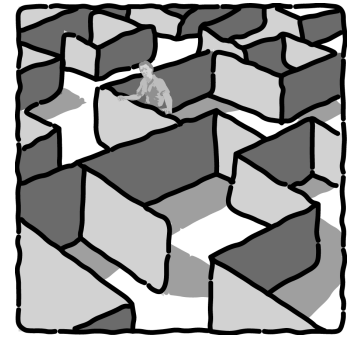

PEOPLE

At Buz2i, we have a diverse array of talents. Our people have backgrounds in business, marketing, Web design, application development and systems engineering.

The right combination of strategy, planning, marketing and execution will ensure that your website works in harmony with your current business, and meets the needs of your organization.

At Buz2i, we work closely with our clients in understanding their needs, and their business. We work together to develop a creative and workable solution to our client's IT business challenges.

Buz2i is always looking for good people to complement our current skill set, either as employees or contractors. If you have skills or qualifications in business, marketing, or web/database development, we would like to hear from you.

Complex problem solving through teamwork.

PARTNERS & AFFILIATES

Strategic alliances and partnerships are important to Buz2i. This allows us to share key resources, and by working together in joint venture projects, we are in a better position to leverage our combined strengths to capitalize on new market opportunities. If you are interested in working with Buz2i to take advantage of new opportunities, please contact us. At Buz2i we encourage our clients to refer their business associates to us. In return, Buz2i will reward each new contract by a finders fee.

“Our goal is to provide businesses and organizations with the necessary skills and tools to compete in the new economy.”

NETWORK SOLUTIONS

We offer a number of wireless and wired data communication systems to fit the unique needs of the each and every customer, from small home networks to corporate WAN's.

DOMAIN HOSTING SOLUTIONS

Buz2i's Virtual Hosting services can give you the ability to use your own domain name (i.e.: mybusiness.com) on one of our shared servers, giving the appearance to the world of having your own server. The main benefit to having your own domain name is that it provides a more professional, larger company image.

Our base hosting package comes with ample storage space for web pages, your own FTP account for uploading/updating your website, Email accounts, and up-to-date graphical web statistics.

Higher level packages include access to CGI tools and scripting languages (ASP, PHP, etc.) as well as database connectivity (MySQL , Cold Fusion, etc.)

INFORMATION TECHNOLOGY TRAINING

Whether you are a small business just getting started on the internet or a well established corporation that needs a little boost, we have Information Technology Training solutions to meet your needs.

Why Should I Host With Buz2i Inc.

Buz2i is a provider of Internet solutions that help growing companies successfully compete in the New World of business. From high speed access web hosting on Cisco-powered Internet backbone to e-commerce solutions, security services and virtual private networks, we have the infrastructure, expertise and hands-on local presence to give business of any size a clear competitive advantage on the emerging net economy.
